

*It takes about 55 days
for one egg to hatch.*

*Babies stay on their
parents feet for about
30-40 days after hatching.*

*King penguins do
not make a nest.*

*On average, parents
will raise 2 chicks
every 3 years.*

*King Penguins lay
only one egg at a time.*

*The parents take
turns holding the egg
on their feet.*

*When babies
hatch, they
weigh less than
half of a pound.*
